Suma® Nova L6

Clean and dry tableware on time, every time

Suma Nova L6

- Powerful detergency
- Economy in use
- Suitable for all water conditions

Powerful detergency

Suma Nova L6 is a heavy-duty alkaline detergent specially formulated for the fast, effective removal of dried-on food soils and grease. Designed for the professional caterer it achieves excellent results on crockery, cutlery, glassware, pots, pans and utensils.

Economy in use

Suma Nova L6 uses a highly efficient and concentrated formulation. This means users do not need to change product containers frequently, reducing health and safety risks and saving time and money.

For all water conditions

Suma Nova L6 contains a high level of scale control agents which combat water hardness in the wash cycle, preventing lime scale build up in the dishwasher and boosting the cleaning performance. Suitable for even very hard water areas.

Suma Nova L6

Suma Nova L6 is a concentrated liquid dishwashing detergent for use in a wide range of single and multi-tank warewashing machines. Suma Nova L6 is particularly effective in hard water conditions. For best results use in conjunction with Suma A8.

Usage Instructions

- The product is dispensed automatically with the built-in integral dispensing system in the dishwasher or with Diversey automatic dispensing equipment.
- Ensure the detergent product pick-up tube is below the surface level at all times.
- Dose at 1-3 g/l depending on local water and conditions.
- A concentration of 3 g/l will prevent scale in water up to 300 ppm hardness.

Top Tips

- Regularly empty, clean and re-fill the dishwasher
- Check both the wash and rinse reach desired temperatures
- Check jets are clear
- Check salt level in water softener
- Replace detergent as soon as it is empty

Technical data

Appearance	clear yellow liquid	Density	1.27g/ml
pH	> 12.5 undiluted
