

# Masodip<sup>®</sup> Extra

0.436% w/v ready-to-use teat dip and teat spray solution

Ready-to-use. high emollient chlorhexidine teat dip & spray. Effective aid in the control of mastitis.

UK Authorised Veterinary  
Medicine.

When used routinely, it will  
prove a valuable aid in helping  
to control Bovine Mastitis.

- Based on Chlorhexidine Gluconate which works to help reduce the bactericidal contamination that causes mastitis in dairy herds.
- Contains 12 % emollients (10.8% w/v Glycerol & 1.2% w/v Sorbitol) to help prevent & heal cracked & chapped teats & to keep them soft & supple.
- Especially suitable for situations where measurement & mixing are likely to prove inconvenient.

#### No dilution required.

#### TEAT DIPPING:

Fill teat cup about two thirds full with the product.

Dip teats of every cow immediately after each has been milked, making sure that the full length of the teat is immersed.

Top up with fresh solution as required.

Teat dip cups should be emptied and washed after use.

#### TEAT SPRAYING:

Immediately after milking, spray the entire surface of each teat of every cow with the product.

#### UDDER WASHING AND CLUSTER DIPPING:

Dilute in the proportion of 150 ml to 10 litres of clean water.

To help prevent cross infection, individual cloths or disposable paper towels are strongly recommended. Immerse clusters and agitate for at least half a minute. Rinse in clean water before use. Wash and dry udders & teats before milking.

#### 25l Order Code: R079KEV

Pack: 25 litre (27.04 kg)

Pallet: 32 Each

#### 200l Order Code: R079NEV

Pack: 200 litre (216.62 kg)

Pallet: 4 Each

#### 1000l Order Code: R079SEV

Pack: 1000 litre (1104 kg)

Each

#### PRODUCT INFORMATION:

Appearance: Clear red liquid

Odour: Faint alcohol

pH - undiluted: 5.7
