

Cleansan™

Detergent for cluster flush and teat brush systems

A detergent for cluster flush and teat brush systems. Effectively cleans clusters between each cow or when used through teat brush systems.

Concentrated QAC-free detergent.

No peracetic acid required through cluster flush systems; less corrosion.

- Highly effective at cleaning teats through teat brush systems.
- Formulated without peracetic acid.
- Ideal for cluster flush systems that are at risk of corrosion.
- Suitable for use in conjunction with added disinfectants in teat brush systems.

DIRECTIONS FOR USE:

Make 200 litres of solution in a clean, empty 200 litre drum:
Add 25 litres of Cleansan™ and then add 175 litres of clean water.
Ensure thoroughly mixed before use.

CLUSTER FLUSH SYSTEMS:

Set cluster flush dosing unit to 0.5-1.0% and insert the dosing tube into the drum.

TEAT BRUSH SYSTEMS:

Use this solution at a concentration of 2-5% through the teat brush system. Use in conjunction with a suitable disinfectant (eg. Peradox™)

25l

Order Code: R013KEV

Pack: 25 litres (25.63kg)

Pallet: 32 Each

PRODUCT INFORMATION:

Appearance: Clear colourless liquid
Odour: Unperfumed
pH - undiluted: 7.0
Shelf life: 3 years

COMPOSITION: Contains a blend of nonionic surfactant, sequestering agent, solubiliser and preservative.

BIODEGRADABILITY: All surfactants used in Evans Vanodine products comply with the current European Regulations concerning biodegradability & protection of the environment.

QUALITY ASSURANCE: This product is manufactured in the U.K. by EVANS VANODINE INTERNATIONAL PLC under an ISO 9001 Quality Management System Cert. No. FM 09535 and an ISO 14001 Environmental Management System Cert. No. EMS 506072 registered by the British Standards Institution.
